Locals

W. E. Gammon was in town Tuesday, attending for an auction at his place in East Oxford on Oct. 18. He has sold his farm to Peter Pajiu and after disposing of a large quantity of farming tools and stock will move to Oxford village. Having bought the Geo. Parot stand he expects to settle down for a quiet life after digging the soil for eleven years and saving a few dollars. Trucking and job work will keep him young.

The toy room on the upper floor at Charles F. Riddon's store has been painted glass white and otherwise improved before the Christmas goods arrive.

Frank P. Knapp, leader of the Norway-Paris band, will be featured as soloist at the Firemen's Old Fashioned Ball and Carnival. Mr. Knapp is a favorite in this section and one of the best soloists in the State.

Richard Gray has the best court for horseback pitching in town. The location is in the rear of L. T. Gilbert's residence, on Main street, and adjoins the Norway Branch R. property. Surface is clay and electric lights permit evening practice or matches.

Philip Braden is taking a vacation from L. J. Brooks' store this week. Charles Bartlett is substituting during his absence. Early this week Mr. Braden accompanied his mother to Portsmouth, N. H., where she will visit. He continued on to New York City.

Harold A. Anderson is after a large rest for the musical comedy to be presented Oct. 29-30 under the auspices of the Twin Town Baseball Association. Young people are needed and Mr. Anderson wants a large list of talent ready for the producers. Rehearsals will commence about Oct. 14. No groups will be called for rehearsals on consecutive evenings, every other evening will be observed. Seek to "Pat" Anderson and save him messages.

The illustrated lecture by District Superintendent D. B. Holt, D. D., at the Methodist church, Sunday evening, was well attended. Over seventy slides projected on a screen showed the buildings, past and present, of Boston University, and those of the school at Kent's Hill. The last named institution was particularly interesting for graduates residing in Norway and the surrounding towns and the school is well known. The lecture was to prepare the way for a financial drive which will soon be launched.

Fred M. Davis is night officer while Officer Earl Barker is taking a vacation in the deep woods after game.

Capt. Met Sampson and Reggie Dismore spent four days in Mason, West Bethel, Newry and Upton hunting behind the old dog Nan. They brought home twenty-one birds, two rabbits, one gray squirrel and one hen hawk, all of which are preserved in a photograph.

Dr. C. W. Nelson has opened his office in the Kimball house on Bridge St., for the practice of medicine and surgery with hours from 1.30 to 3.00 and 7 to 8 p. m. A telephone has also been put in No. 335.

The boilers and fireboxes at the C. B. Cummings & Sons Co. are being put in shape for winter.

Annual District Convention of the Knights of Pythias will be held at Association Hall South Paris, Friday evening, Oct. 24. Ali Baba Temple, No. 68, D. O. K. K. of Auburn will give a drill. The rank of Knight will be conferred by Hamlin Lodge.

Mrs. Etta M. Dow of Portland has been visiting her brother, Wilfred G. Conary, the past week. Mr. and Mrs. C. M. Cravatt have returned to Cedarbrook Farm, after a stay of eight days at the Nurses' Hospital where Mr. Cravatt was under observation and received treatment.

Mrs. Harry A. Packard and infant son, Robert Noyes Packard, who are at Dr. Edmund's Hospital on State St., Portland, are getting along nicely, according to the latest reports. The stock arrived there on October 6.

There are many sorry women and girls this fall, for they miss their head covering now cold weather is at hand. They are like a fowl that molts late and hair does not grow as fast as feathers do.

Billy White has a radio receiving set at his pool room, where he is taking in the World Series and attending trade at the same time. He has lately joined the radio fans and may keep the set for winter enjoyment.

Norway High School

School Items, Corn Roasts, Fair Plans

Wednesday morning, Rev. N. R. Pearson conducted morning exercises and delivered a few brief remarks to the student body.

Wednesday evening members of the Senior Class and faculty of the High School enjoyed a corn and weenie roast at the Norway Lake schoolhouse. Many declared it to be the best get-together that the class of 1925 had ever had. Athletic Association tickets have been selling slowly and for that reason a plan to arouse interest among the classes has been decided upon. The idea is to see which class can get the largest percentage of members to join the Association. Competition promises to be keen.

The Editorial Board of the Caduceus has held two meetings the past week to discuss plans for this year. Although some assistants have been chosen, the Editorial Board is not yet in working order.

A "Pop" meeting was held Friday morning at the school. Chorus were given and at the close the school song was sung.

Inter-class cross-country races will be held by all the classes.

The "Aggies" held a corn roast Monday night, just before the public camping grounds. Corn was furnished by the Thurston. Marshmallow were toasted and a general good time was had.

High School Fair
The annual high school fair will be on Friday, Nov. 21. The fair is for the benefit of the Athletic Association. The following committees and duties have been given out:

Refreshments-Edna Young, chairman; Inez McAllister, Irene Nevers.
Candy-Margaret Alford, chairman; Dorothy Tucker, Kathryn Drake.
Puggone Teller-June Dismore.

Junior-Sophomore-Boys each furnish three mystery articles for boys' booth.

The Locke Homestead Destroyed
The Charles Locke house at 45 Water Street was badly damaged by fire early Wednesday morning and the contents practically a total loss. The premises were occupied by Mr. and Mrs. R. H. Howard and son, who barely escaped the flames. Mrs. Howard was overcome with smoke and fright and had to be removed to a place of safety by her husband who discovered the fire. A kerosene lamp exploding is believed to have started the blaze which spread through the rooms before the occupants could act. A few trunks, some bedding and a talking machine were about the only articles removed. Loss is partly covered by an insurance of \$1600 on the house and furniture, carried with the Stuart W. Goodwin Agency.

The family is having trouble securing a rent until the insurance can be adjusted. Mrs. Howard is undecided about rebuilding.

Baseball fans not supplied with radio receivers have followed the games at the A. L. Clark Drug Co. Bert Clark has run open house for the crowd and the bunch gathered afterwards to follow the plays.

Mr. and Mrs. W. T. Smith moved part of their household to Mechanic Falls, Tuesday, and will reside there until spring. Mr. Smith has good business repairing watches and clocks.

Those who may be able to attend the I. O. O. F. Grand Lodge at Bangor, Oct. 13-15, and the Maine State Normal Convention at Portland, Oct. 15-17, will be interested in the reduction of fares on the Grand Trunk for the gatherings.

Mrs. Elmer Cummings and daughter, Elaine, of South Paris, Mrs. P. H. Nevins and Clara Schuerer enjoyed a trip to the World's Fair at North Waterford, Saturday.

Shaw dance at Norway Grange Hall, Tuesday evening, was well attended. Another will be held there Tuesday evening, Oct. 14, at 8.30 after the Boys' and Girls' Club meeting.

Rev. Olin H. Tracy, D. of Portland arrived at the home of his son, Rev. Olin B. Tracy, Tuesday evening. Thursday they motored to the Tracy farm in Durham for the day and left for their respective homes late in the afternoon.

Fred Lovejoy and family and his mother, Mrs. G. Lovejoy recently made an auto trip up into the White Mountain region among the old familiar scenes where he lived for some time as forest ranger for the Government. It is a very beautiful ride and they enjoyed every hour of their visit. They also made a trip to the Wild River and found the road to the forest station very much improved since they lived there where Mr. Lovejoy also worked for some time as forest ranger on the Wild River trail over the mountains.

Ronell Bicknell has arranged an ingenious display of hardware at the S. J. Record Co., named "Fall Showing of Hardware Millinery." Stylish hats made from articles of hardware in stock are trimmed with small findings picked from the shelves. Percolator tops, paint brushes, wire dish cloths, floor mops, brushes, tie-up handkerchiefs, and other things go into the creations closely representing the real thing in women's head gear.

Supt. and Mrs. W. H. Edminster are visiting Mrs. Edminster's parents in Tilton, N. H., this week. Mrs. O. B. Tracy accompanied them to Canterbury, N. H., to return before the week end.

Mr. and Mrs. Charles Brunelle and Miss Marion Noyes of Gorham, N. H., were Sunday guests at Timothy Heath's. Mrs. Bertha Noyes, who has been visiting Mrs. Heath for several days, returned to Gorham with them.

Mrs. Albert R. Conary of Bluehill has been visiting Mr. and Mrs. Wilfred G. Conary.

Court News

Wm. F. Jones, Judge

NORWAY MUNICIPAL COURT
Albere DeBelois of Lewiston pleaded guilty of reckless driving in Hartford and settled fine and costs of \$31.75. Deputy Sheriff W. Buck of Buckfield was the complainant.

On complaint of Sheriff W. O. Frothingham, Edward M. Israel of New Jersey appeared and was fined \$25 and costs for having a loaded weapon in an automobile. The respondent is the third member of a quartet of boys appearing before the court charged with the same offense several weeks ago and the fourth member is yet to appear.

Won Honors at National Shoot
Joseph A. Crooker and Arthur Olmstead, expert riflemen of Company C, returned Saturday from Perry, Ohio, where they participated in the National Rifle Association shoot as members of the state team. This team comprised thirteen riflemen and three officers picked from the Maine National Guard. All the rifles and possessions were represented with teams drawn from the regular army, the navy, and National Guard. Competition was keen with the large trophies won by the regulars. Marksmen to even place in the matches must score high among several thousand experts on the range.

The Norway boys were the only Maine representatives to qualify. Corp. Olmstead won a bronze medal with bars and Corp. Crooker not only has a medal with six bars, but a check won in the President's match. He came within three points of winning the first one hundred men to be awarded a letter from President Coolidge, but a check was presented the second division experts. This paper will be framed and treasured as a souvenir in Corp. Crooker's home.

Corp. Crooker won over his team mates on the range as follows: 200-300 yards, rapid fire; 200-600-1000 yards, slow fire. The state team left Portland in Pullmans early in September and settled in tents at Perry on the shore of Lake Erie. They had considerable rain during two weeks practice before the match. Corp. Olmstead was ill from vaccination and lost valuable time, but made excellent showing on the targets in spite of the handicap.

On the way home the outfit stopped at Cleveland, Ohio, and at Buffalo, N. Y., a side trip to Niagara Falls proved interesting. The trip was enjoyable in every way and the boys feel confident Company C will profit by the honors brought to Norway.

Corn Hunts are Productive
It seems to be the prevailing sport at the present time to go out in the evening with a few found dogs and chase coons. It is sometimes impossible to tell whether the hound dogs will tree a porcupine or whether they may tree a coon. It is reported on good authority that seventeen men left their village on Tuesday evening on a coon hunt. The party consisted of some of our most prominent men in our town. They report that five coons were captured. "Considering the match," which were used in a chase came from Ohio, they were smart enough to catch five coons in one night, we will have to give up the honors for our State of Maine dogs to Ohio. The five coons will be properly roasted and served at the house of the hunter.

On the way home the outfit stopped at Cleveland, Ohio, and at Buffalo, N. Y., a side trip to Niagara Falls proved interesting. The trip was enjoyable in every way and the boys feel confident Company C will profit by the honors brought to Norway.

Pearson attended the Augusta Ministerial Association meeting at Auburn, Tuesday.

When you are worried by backache; By lameness and urinary disorders; Don't experiment with an untried medicine.

Follow Norway people's example. Use Doan's Pills.

Here's Norway testimony. Verify it if you wish:

W. O. Needham, retired farmer, 280 Main St., says: "At different times when I have taken cold my kidneys were affected. I began using Doan's Pills when my kidneys needed a tonic and they always strengthened my kidneys and cleared my system of the excessive uric acid. I always felt better in a short time and I know Doan's are what gave me relief. (Statement given July 24, 1908.)"

On September 3, 1920 Mr. Needham said: "I haven't changed my opinion of Doan's Pills. Doan's benefited me greatly and I haven't lost an opportunity of recommending them since." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

World's Fair

Record Breaking Crowd—Hot Weather—Big Midway

Approximately seven thousand people swarmed to North Waterford, Saturday, and smashed the attendance record by a wide mark. Just the right weather to coax out the people. Clean skies and hot which fell to the world's fair this year. Hundreds of automobiles rolled into town and found quarters along the roadside. People went early and before noon it was evident that Saturday would be high tide for the Association.

Fifty or sixty tents and booths settled on the midway in the village square and the space was packed solid with articles for sale. Attention had been given to the placing of lots so the big way of commerce occupied three streets. This arrangement spread the crowd and less congestion resulted.

Midway Shows
About everything was there. The bunch dropped in from the Fryeburg show, others came from the four corners of the earth.

There was something for everybody—candies, drinkables, noise makers, eye-dazzlers, novelty freaks and wearing apparel. Toy balloons were the rage as usual, bbling beauties and rubber devils (Mickey Riley), jumping mice, lapel buttons, swagger sticks and a thousand other novelties to be secured in games or gold each.

Not a dull moment was allowed. The dainty camera man on one side, next the blanket man with tickets for easy chances, behind hustled somebody with pop corn of ice cream sandwiches, just one thing after another.

Side shows were in abundance. Homer Truman had a tent where boxing and wrestling kept crowds entertained. He used local boys in the ring and they kept their friends on tip toe.

Dallas Benson's Wild West show with six performers, though not in the midway, collected the coin they featured "trick" roping, fancy and trick riding, bronco busting and skillful shooting. This was the first time the show had hit the road this season.

Whitcomb and Anderson's side show

was a collection with a funny clown, a strong man, a mind reader, freak children and other attractions including a monkey with a gold tooth—that's what the announcer said.

Another vaudeville show, "One Night of Dreamland," attracted many, where music and mirth reigned. Madam Stanley, palmist and clairvoyant, catered to a large following seeking advanced information or misinformation as chances might direct.

R. P. Skeetop, the Passamaquoddy Indian, was at his post selling sweet grass baskets. His son, Henry, decked in costume and feathered head piece, disposed of baskets with an arrow shooting game.

Harry Isaacson of Auburn was on the other traders' handling army clothing, sweaters, shoes and the like found business good despite the heat.

At and Bill Twitchell of Oxford dispensed ice cream, cold drinks and fruit. Herman Richardson, formerly of Norway, and Ralph Richardson of Norway and Bill Bennett in the Y. D. booth were among local vendors selling hot dogs, lunches and soft drinks.

Jim York, well known at fairs, had a game in operation. Mrs. York handled the bowling and his father, Robert York, looked after the high striker, where strong men could swing the mallet. Jim talked up the excitement of knocking down the kitties, a game he was featuring.

Bridge of Bridgton popped corn in tinny lots and sold it through the crowd. Things were rushing around his stand. Games to win baby dolls, blankets, canes and toilet articles were on every corner. Dodgers and contraptions offering "two fer" cigars collected many dimes. Several joints operated the ticket scheme but the majority confined their methods to games of skill and played safe.

Hatch & Littlefield of Waterford operated the merry-go-round. Mrs. Hatch sold tickets for rides and Ezra Lebroke assisted the two proprietors about the machine. The machine has whirled a big mileage during its long period of service but receives good care in its old age.

Years ago under former ownership the outfit was spry and followed the various summer engagements on the week stand basis. Up-to-date riding devices have retired the old public servant to storage. Every fair time the parts are assembled and set whirling for two days while the organ plays the old familiar tunes. Several generations have enjoyed the sport on this relic and the machine has every appearance of holding its own for years to come.

Several automobile dealers showed their wares but were after prospects rather than sales. O. K. Clifford of South Paris, representing Cole & Clifford, talked up the Dodge. W. Knight of the W. P. Knight Co., Norway, expounded the Studebaker and passed out advertising matter. Several other representatives were scattered about the grounds.

An upstairs porch at the vacant store on the corner served for a grand stand where several invalid ladies occupied chairs and enjoyed the sights. The band concert could be heard and practically the whole show lay before them. Friends provided refreshments.

Hall Exhibits

R. M. McKeen, superintendent of the hall for twelve years, was again in charge of the exhibits filling the old store on the corner to the limit. On the walls on three sides and one in the middle were just loaded with fancy work, embroidery, vegetables and curios. A large line of jewelry and a demonstration of Art needle work were attractive. Miss Hazel Bicknell of the Fashion Shop displayed a line of stylish hats and made numerous sales. She also sold gift and holiday cards. Mrs. Freelove of Bridgton showed a good line of hats. Her stand was on the platform near the main entrance.

For the vegetables, the mammoth squash shown by Myron D. McAllister of Oxford was the most conspicuous. A card stating the size and weight would have informed the curious. Wise acres guessed the squash weighed at least seventy pounds and was probably eight feet around the longest diameter.

Rilla Marston's display of squashes, turnips and flowers occupied a conspicuous place. On the same table G. W. Briggs exhibited banana squashes, Boston cream squashes, water and musk melons and potatoes.

Donald Green had some nice Tom Thumb pop corn and Dorothy Green offered a plate of luscious red tomatoes. Two pumpkins exhibited by Abner B. Kimball, Bethel, weighed 33 and 35 pounds. A young son of Mr. Kimball informed the crowd that the vegetables had not been fed for the occasion but were just as they "grewed." A good collection of potatoes was offered by G. E. Hobson. Edith Littlefield had a well formed squash and R. M. McKeen exhibited, as usual, the largest variety of vegetables and fruit. His exhibition included nice specimens of squashes, pumpkins, corn, beets, potatoes, seven kinds of dried beans and several plates of apples. Several large eggs minus the contents were shown.

Mrs. Lydia Shedd, a well known exhibitor of garden products, had a collection of a dozen or more well shaped squashes.

Interesting natural history collections were shown by Mrs. Lydia Shedd and Earl and Raymond Brown. Mrs. Shedd's specimens from Florida were arranged variety of sea shells, besides a specimen of vegetable growth of much interest to northerners. The Brown boys' collection was made up of shells, Mexican curios, a piece of sugar cane, sponges, coral, articles encased in barnacles and long leaf pine.

Mrs. Susie Gammon, aged 69, of Norway, had on exhibit and for sale home knit mittens, beautiful samples of tatting in the form of a dresser scarf, table runner, a water set, a center piece and a luncheon set. Twelve yards of trimming were required for the set. She also showed a nice warm puff of attractive design.

Infant's booties were crocheted by Isabelle N. Jones, aged 11, North Waterford, and nicely done Mrs. J. A. Harding showed a sofa pillow of silk pieces. The pieces of Art work, the latest fad, were displayed by Miss Irene Briggs.

J. Henry Briggs crocheted an attractive sock which showed good taste in color effects. A boudoir cap made by Mrs. W. W. Jones attracted the attention of the ladies.

Moore's Won't Leak

Price \$2.50 and up

The principle which makes this pen non-leakable is the method of sealing the reservoir by a hard rubber cone. By the employment of a screw-thread at the mouth of the barrel which engages another thread in the cap the pen is made bottle-tight. It can be carried in any pocket, hand-bag or traveling case without danger of leaking. When you put the stopper in a bottle and a cap to hold it in place, you know it cannot leak. This result expected by theory is proven in practice. The Moore Non-Leakable Pen cannot leak for it is

KARNAK

Is Giving Hundreds Here a New Grip on Life by Restoring Health, Strength and Energy of Younger Days

Never before has this city seen such a revival of the spirit of youthful vigor and energy as has been manifested since the introduction here of M. Pierre Andre's famous health building medicine Karnak!

People who have been dragging around half sick—waking up dull and tired, eyes heavy, head dizzy, tongue coated, bad taste and offensive breath, are now bright and happy, full of pep and radiating health and energy as a result of taking Karnak.

Hundreds of men and women here who have been suffering from just such symptoms as indigestion, stomach, liver and kidney disorders—many of them of long standing, and some weak, thin and apparently on the verge of collapse—are now like people re-born again.

These happy people testify that Karnak has fully restored them to their normal weight and strength, and made life worth living again.

Try this great Karnak yourself! Notice the quick difference in the way you eat, sleep, look and feel—the remarkable improvement in your health, strength and energy. The cost is small and you will be completely satisfied; otherwise the Karnak agent will refund your money without even questioning you.

Karnak is sold in Norway exclusively by Frank F. Stone, and by the leading druggist in every town.

"There Is So Much More Room In This Glenwood Oven"

Model "C" For Coal or Wood

Finished in pearl-gray porcelain enamel or in plain black. To furnish plenty of hot water we can equip this range with either a water front for urban districts or a special reservoir for rural homes.

WHEN baking day comes round you'll always appreciate the big roomy oven of a Glenwood range. Here's the Model "C," for instance. Its oven is wide and deep with plenty of space to adjust the sliding rack at different heights. The corners are four-square, allowing you the full width of the oven bottom for anything that needs to be baked very slowly and thoroughly.

The indicator on the door tells you just how hot to keep your fire for cakes, pies, roasts and biscuits. May we show you this range, some day soon?

achievements come by somebody sticking

at a worthwhile task until he succeeds.

There may be something in luck, there

may be something in opportunity, but he

who sits down and waits for either op-

portunity or luck will find himself out of

the path of both. Don't wait for op-

portunity or luck, keep on working and

thinking and studying your job. Stick

to the thing you can do best and you will

dig your opportunity out of the gold mine of

your fortune. Your opportunity is in you,

not in the thing you do, and he who

keeps a healthy body, and a clear mind,

doing his little share of the world's

work, as well as, or better than anybody

else is bound to get ahead and be

NERVOUS, RUN-DOWN MOTHERS

Worn Out Caring for Children and Housework—See how Lydia E. Pinkham's Vegetable Compound Helps

Indianapolis, Indiana.—"I was in a very nervous and run-down condition while nursing my baby, and hearing some talk of Lydia E. Pinkham's Vegetable Compound, I began taking it. From the second bottle I noticed a big improvement, and I am still taking it. I am not a bit nervous now, and feel like a different person. It is a great medicine for any one in a nervous, run-down condition, and I would be glad to give any one advice about taking it. I think there is no better medicine and give you permission to publish this letter."

—Mrs. ANNA SMITH, 541 W. Norwood Street, Indianapolis, Indiana.

The important thing about Lydia E. Pinkham's Vegetable Compound is that it does help women suffering from the ailments common to their sex.

If you are nervous and run-down and have pains in your lower parts and in your back, remember that the Vegetable Compound has relieved other women having the same symptoms. For sale by druggists everywhere.

Oxford Pomona Grange

October Meeting Held at South Waterford. Good Attendance and Fine Meeting.

The October session of the Oxford Pomona Grange, was held at South Waterford on Tuesday with a good attendance. A number of candidates were given the degree. A resolution was presented by Hon. Leslie E. McIntire for legislative action requiring owners and operators of motor cars to give bond or furnish insurance to pay all damages resulting from careless driving and collisions on the highways. If one could not furnish such security he would not be granted a license to run a car. It is thought that some such a law as this would go far to prevent the appalling destruction of life and property.

A splendid dinner was served by the ladies of Bear Mt. Grange of the place. No better cooks can be found in the State. The literary program, as usual, was excellent. The music was fine, the solo by Miss Monroe being encored. A lady member of the order gave an interesting sketch of the life of Theodore Roosevelt, and the dialogue by Chaplain Hamilton, Mr. Sanderson and wife and a boy and girl to personate their family, created much merriment and was loudly applauded.

Hon. Frank P. Washburn, Commissioner of Agriculture, gave an interesting talk on taxation. He stated that while the farming communities were heavily taxed, the smaller towns were receiving more from the State than they paid. Waterford, for instance, getting back double or more than its State tax while Portland paid about that proportion more than it received. He did not see, he said, much encouragement for a reduction in taxes. The farmers bore more than their share and suggested the taxation of intangible property of which he estimated that over 400,000,000 or more in Maine escaped paying any tax. His idea in general was, he said, that property should be taxed according to the income it yields and suggested that it might be necessary to resort to a constitutional amendment for the requisite authority for such a system of taxation and to reach the intangible property not taxed.

Judge Whitman of Norway said he was much interested in the able address of the Commissioner. The principle of taxing the income of property and intangible property was just and right and could be enacted into law by a constitutional amendment but this would furnish no relief in his opinion to the taxpayers for from past experience it had been shown that with increased valuation there were new schemes enacted into law that absorbed more than the amount received from this increase so that while the State Board of Equalization was constantly adding to the valuation of the property in Maine the people's taxes were as constantly increasing. He quoted President Coolidge in stating in one of his veto messages that the extravagance in running the Government must stop. This had the right ring he said, and should be followed down to town affairs. Elect men to positions who are competent to conduct matters entrusted to them in a business manner, cut out all schemes and useless offices. Then, and not till then, will the people receive any relief from overburdened taxation.
